

INTERCEPT® II

Introduced in 2009 Intercept® quickly became a best seller thanks to its blend of style, reliability and performance. Based on the venerable Concept™ family but without the advantages of Hunter Pacific's Slimline Motor Technology, Intercept® II has excellent airflow and robust plywood blades.

PRODUCT FEATURES:

- 1320mm (52") diameter
- Plywood timber blades
- Die cast Aluminium body and canopy
- Power usage: 18W to 61W
- Airflow: 11,911m³/hr
- Light cannot be fitted to no light fan
- 3 speed wall control (*supplied*)
